

TRUST FUNDS REPORT 2013

DOMESTIC & FOREIGN MISSIONARY SOCIETY

To the members of the Episcopal Church:

We present the Trust Funds Report 2013. This report, issued annually, provides an update on the trust fund portfolio and investment activities of The Domestic and Foreign Missionary Society of The Protestant Episcopal Church in the United States of America (the “Society” or “DFMS.”).

Investment markets worldwide exhibited dramatic changes throughout 2013. With the exception of developing countries, equity markets rose worldwide. Bond markets, however, generally declined. The DFMS portfolio returned +22.6% before fees, outperforming its benchmark portfolio by +4.3%. The portfolio has continued to produce superior returns in the first six months of 2014. Active management of the portfolio, which we believe is preferable to passive index funds, has enabled the portfolio to outperform its custom passive benchmark over the past three, five and ten years.

During 2013, 7 new trusts were opened, adding nearly \$2,210,000 in principal. We are thankful for the generosity of people and parishes that share their abundance to support the continuing work of God’s mission through the church.

We hope that this report will be a useful reference for you regarding the many trust funds that support the diverse ministries of our church. We also invite you to read the Investment Policy Statement (<http://www.episcopalchurch.org/page/finance-office>) developed to guide in the management of the DFMS trust assets.

Thank you for the opportunity to serve you and our church.

Faithfully,

Annual Report of the Treasurer

Investment Portfolio 2013

Structure of the Trust Funds Report

The Trust Funds Report is designed to provide information on the Investment Portfolio of the DFMS, its management, decision-making processes and performance. Part I profiles the Endowment Portfolio, which is comprised of approximately 1,061 trust funds and managed by 16 external investment managers at December 31, 2013. These funds are maintained in a common investment portfolio and participate on a pro-rata basis in all returns. These funds are overseen by the Office of the Treasurer under the direction of the Investment Committee. Part II provides information on the charitable funds which are separately managed. Part III details the Society's socially responsible programmatic investments.

Portfolio Composition

The investment portfolio of the Society consists of three parts:

1. Endowment funds (trust funds):
 - Funds owned, held and managed by DFMS and benefiting DFMS (Endowment)
 - Funds owned, held and managed by DFMS and benefiting other Episcopal/Anglican entities (trustee type)
 - Funds held and managed by DFMS but owned by and benefiting other Episcopal/Anglican entities (custodial type)
2. Charitable funds:
 - Pooled Income Fund (separately managed)
 - Charitable trusts, unitrusts and annuity trusts (each separately managed)
3. Programmatic investments:
 - Economic Justice Loan Fund (funds from Endowment)
 - Community Development Investment Program (funds from Endowment)
 - Minority Bank Deposit Program (funds from DFMS operating cash)

PART I: ENDOWMENT

Investment Objectives

The Investment Policy considers both the current and projected financial requirements of the Endowment. The investment objective is a long-term rate of return on assets that will generate earnings to provide a sustainable and increasing level of income to support the current and future ministries of the Episcopal Church in accordance with the wishes of the donors or owners of those funds, while preserving the real (inflation-adjusted) purchasing power of the funds. To accomplish these goals, the Endowment must generate an average annual real total return (net of investment management fees and after inflation as measured by the CPI index) in excess of the endowment annual spending rate (which ordinarily ranges between 5% and 5½%) over rolling five-year periods.

Investment objectives should be achieved within acceptable risk levels, while avoiding large short-term declines in market value. Further, income yield (interest and dividends) should be sufficient in most periods to avoid the necessity of liquidating investments at an unfavorable time. Modest amounts of capital appreciation may be spent, however, to offset income shortfalls that may occur in unusual economic circumstances.

Since the endowment is essentially a perpetual investment portfolio, a higher degree of risk and volatility can be tolerated compared to a portfolio with shorter time horizons. This tolerance of risk and volatility, however, is limited by the need to provide a stable and growing cash flow to support the DFMS operating budget and to avoid the necessity of liquidating investments at an unfavorable time.

The assets of the Endowment are invested in accordance with the following objectives:

1. Maximize return within reasonable and prudent levels of risk of loss of principal.
2. Maintain sufficient liquidity to meet payment obligations on a timely basis.

Oversight of Assets

The responsibility for overseeing the assets resides with the Executive Council Investment Committee. The Executive Council delegates to the Investment Committee the responsibility for ensuring that the assets of the Endowment are invested effectively and prudently, in full compliance with all applicable laws for the exclusive benefit of Endowment.

The responsibilities of the Investment Committee include:

- recommending and reviewing investment policies and objectives;
- selecting or removing, from time to time, the investment managers (the “Investment Managers”), custodians and other advisors for the investment and reinvestment of the Endowment;
- determining an asset allocation for the Endowment
- reallocating the assets among Investment Managers if the overall asset allocation policy limits have been exceeded, within the guidelines stated herein;
- periodically evaluating, with the assistance of its investment consultant (the “Consultant”), the performance of the Investment Managers;
- reviewing and modifying the IPS, when appropriate.

Asset Structure and Administrative Policies

The Endowment portfolios function similar to, but not exactly like, public mutual funds:

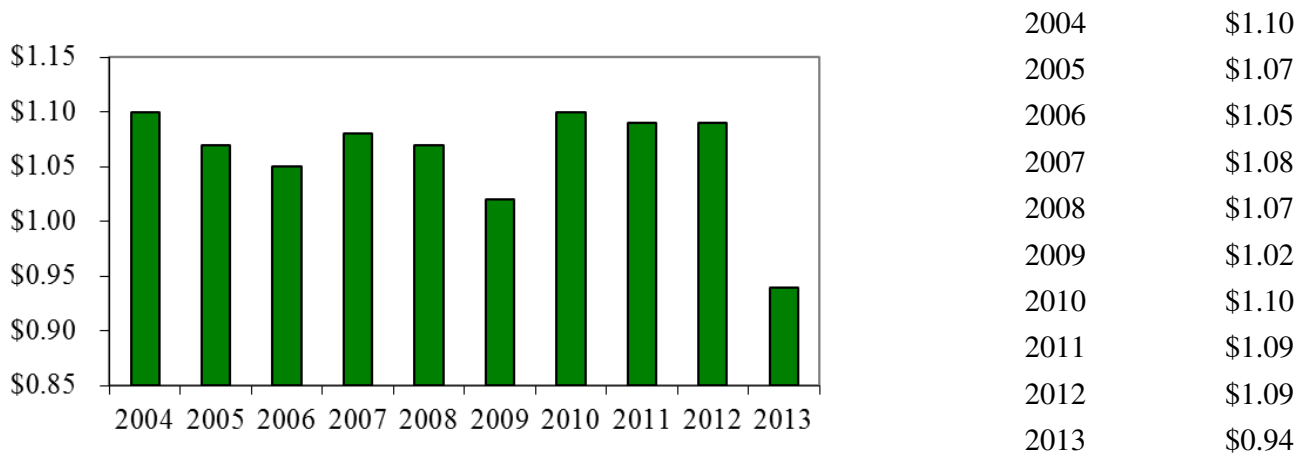

- Assets are consolidated or “pooled” for investment purposes and each trust fund in the Endowment portfolio holds a determined number of shares in the Endowment pool. The number of shares assigned to each trust fund changes when additions (usually gifts, contributions, or reinvested income distributions) and/or withdrawals (where permissible) are made.
- The value of a share fluctuates with the changing value of the underlying investments in the pool. At the end of each calendar quarter, the share value is determined by dividing the total market value of the portfolio by the number of shares in the portfolio.
- Investment management expenses are shared proportionately by all participants; *DFMS does not impose any additional charge for its costs of administering the portfolio.*
- In order to minimize transaction costs, funds are moved into and out of the portfolio once each month (previously once each quarter before 2012). While contributions to new or existing trust funds can be delivered to DFMS at any time, funds will only be invested with the money managers after the end of the calendar month during which the contribution is made.

Distribution Policy

Distributions from the invested funds are based on the two components of total return: yield and appreciation. A portion of the total return of those funds for which the Society is the beneficiary is distributed for current operating expenses. The distribution rate currently approximates 5.0% of a five-year rolling average market value per share. The payout set by Executive Council at \$0.94 per share for 2013 provided operating income (restricted and unrestricted) of \$8.1 millions to the Society in 2013.

The Society aims to maintain a stable payout rate, though it may be adjusted periodically in response to changing capital market returns, inflation experience and other factors. If, in the judgment of the Investment Committee and the Treasurer, market performance will not support a 5.5% distribution and protect the real purchasing power of the Endowment, the Council may adjust the distribution in accordance with prudent fiduciary conduct.

Asset Allocation

The Investment Committee is guided by the philosophy, which is supported by analytical studies, that the asset classes selected, not the individual stocks or bonds selected, represents a significant determinant of long-term investment return. With the assistance of its investment consultant, Evaluation Associates, Inc. now Mercer Investment Consulting Inc., the Committee regularly reviews various asset allocations that will enable the Society achieve its long-term total return objectives while maintaining the lowest level of risk or variability of returns. In 2013, the Committee again concluded that the Society would be able to meet its spending goal of approximately 5.0% and maintain the future purchasing power of the portfolio by continuing with the broad target portfolio asset allocation adopted in 2011.

Note: Market values above reflect the unaudited value of the assets held by the custodian (The Bank of New York Mellon) at 12/31/13 and may differ from values reported in the DFMS audited financial statements. The primary differences arise because the DFMS financial statements include adjustments arising from principal additions, withdrawals and income distributions with respect to the fourth quarter, which are made in January of the following year.

The Society regularly rebalances its portfolio to the asset mix established by the Investment Committee. It does not pursue a strategy of market timing.

The chart below summarizes the valuation of the portfolio since 2008.

DFMS Portfolio Performance

Performance Measures

Actual performance of the DFMS portfolio is compared to the expected return of a benchmark portfolio. The comparison enables us to measure the effect of active management on the Society's Endowment against the return that might have been achieved if all of the assets had been placed in indexed (i.e., unmanaged) accounts. The DFMS benchmark portfolio is a portfolio whose asset mix is identical to the DFMS target portfolio, which is based on a combination of the Russell 3000 all-capitalization index; the Morgan Stanley Capital International All-Country World ex-US (MSCI AC ex-US) Index for international equities; the Morgan Stanley Capital International Emerging Markets Gross (MSCI EM Gross) Index for developing country equities; the Barclay Capital Aggregate Bond Index; the Merrill Lynch All Convertibles Index; the National Association of Real Estate Investment Trust Global Property Index; the Hedge Fund Research Institute Fund of Funds Strategic Index; and the JP Morgan Global Government Bond Index.

Performance by Managers

In 2013, the total portfolio returned +22.6% before fees – a performance that exceeded the portfolio's custom benchmark of passive investments by +4.3%. Performance among managers was mixed.

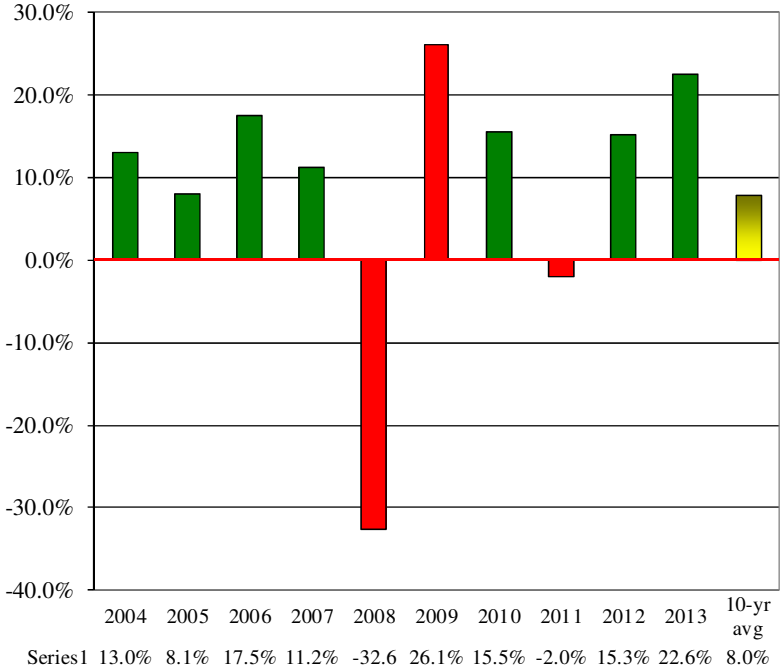

The domestic equity portion of the portfolio rose 36.4%, outperforming the Russell 3000 Index, which rose +33.6%. Large cap equity managers outperformed their benchmark by 1.1%. Small cap equity managers also outperformed their benchmark by +4.8%.

The international equities portfolio rose 18.2% and outperformed its benchmark by 2.4% as a portion of the portfolio was transitioned to another manager.

The bond managers, Western Asset Management and Brandywine Global exceeded their benchmarks. Western was down -1.0% vs. -2.0% benchmark; Brandywine down -3.4% vs. -4.9% benchmark.

Investment markets have been exceedingly volatile in recent years, but overall portfolio performance reinforces our confidence that active management of the portfolio is preferable to passive index funds. Over the last three years the total fund gained +11.5% annually, or +1.7% better each year relative to the custom passive benchmark while paying out steady dividends of 5.5%. Over 10 years, the portfolio returned +8.0% annually and + 1.4% better than its passive benchmark.

PART II: CHARITABLE FUNDS

Pooled Income Funds

There are four individual Pooled Income Funds, which total approximately \$3.4 million. These funds are managed by State Street Global Advisors with an asset allocation of 78% in fixed income, 20% in equities and 2% in cash. Total return of appreciation and income for 2013 was 4.87% (after management fees of 0.50%).

Charitable Trusts

The Society was trustee for 14 charitable trusts, including charitable remainder annuity trusts (CRATs), charitable remainder Unitrusts (CRUTs) and one charitable lead unitrust (CLUT), with a combined market value of \$5.4 million. As required by law, each of these trusts is invested and managed as a separate account; their assets are not commingled with those of any other funds or with each other; and each fund is invested in assets consistent with its individual investment goals.

PART III: SOCIALLY-RESPONSIBLE INVESTMENTS

The Episcopal Church has made socially responsible investments at least since the 1960s – and we continue, following a trinity of avoidance, affirmative action, and advocacy.

1. Avoidance: Not investing in companies whose activities are contrary to our social and moral values.
2. Affirmative Investing: Investing in institutions that can provide financial resources to underserved communities.
3. Advocacy: Voting proxies and activism that focus on constructively influencing corporate behavior.

Economic Justice Investments

The Economic Justice Loan Fund comprises assets which were set aside by Executive Council in November 1989 for socially-responsible fixed-income investments. At year-end 2013, the investments consisted of \$2.1 million in Programmatic Investment deposits at credit unions and similar intermediaries; and \$4.6 million in loans to community development intermediaries made through the Economic Justice Community Development Loan Fund. Loans are evaluated and made by the Economic Justice Loan Committee in partnership with Opportunity Finance Network (OFN).

Interest earned from these investments is typically below market rates, though an effort is made to achieve rates above the inflation rate in order to safeguard the principal available for future loans. The interest earned in this program flows to the DFMS operating budget. Because some of these loans are structured as interest-only until maturity, some balances in the following table are equal to the original amount of loans not in default. [See accompanying tables on pages 13-14.]

Minority Bank Deposit Program

The Society also makes direct deposits in minority-controlled banks designated for placement by the Treasurer's Office in certificates of deposit (CDs) of \$100,000 each. Maturities are short (12 months or less). The list of participating banks is revised as necessary in response to changes in Community Reinvestment Act ratings, ownership and/or the business orientation of the institutions, imbalances of the ethnic distribution of the banks in the portfolio and the Society's commitment to place funds in troubled areas.

658.00	Brugler, M.L. Hubbell, Providence, RI (1936) Bequest of, A Special This fund was established with a bequest from the estate of Mrs. May Louise Brugler and with a portion of the proceeds realized by the sale of real property that Mrs. Brugler had earlier transferred to the Society for the purpose of being a 'rest house' for 'active church workers.' In 1953, the Society constructed a successor 'rest house' in Connecticut (called the Brugler House) for missionaries on furlough; the income from this trust was intended to defray the costs of operating and maintaining the house. In 1979, the Executive Council resolved to sell the Brugler House, to add the net proceeds of the sale to the corpus of this fund, and to amend the terms of the trust 'to provide that the income therefrom shall be used for housing while a missionary is on furlough or seeking employment.'
