Praesidium is honored to deliver online training for Episcopal dioceses and ministries through Praesidium Academy. Church Pension Group has subsidized the costs of this training for many years, and The Episcopal Church has invested in high-quality content that is directly relevant to Episcopalians in their churches and communities. There are additional optional services that individual dioceses may purchase to enhance the experience for users and optimize the system for local safe church administration preferences. These optional services require dedicated technical development time by the Praesidium staff. Please see below for a list of these prices:
